

DDI is Foundational for Today's Technology Trends

Infoblox puts your workplace transformation on solid ground

It's clear that today's businesses are driving workplace transformation at a scale never seen before.

We're seeing it in technologies like:

- Cloud
- Containerization
- Software Defined Networking (SDN)
- Software Defined Perimeter
- Internet of Things (IoT)

In 2019, SD-WAN equipment market revenue grew by 109.9%

By 2023, 20% of enterprises will have adopted SWG, CASB, ZTNA

Modernizing IT is key to building a competitive edge. But to fully realize its potential, these technologies require a solid foundation.

“The BloxOne Cloud managed solution cut our provisioning and configuration time by 40%”

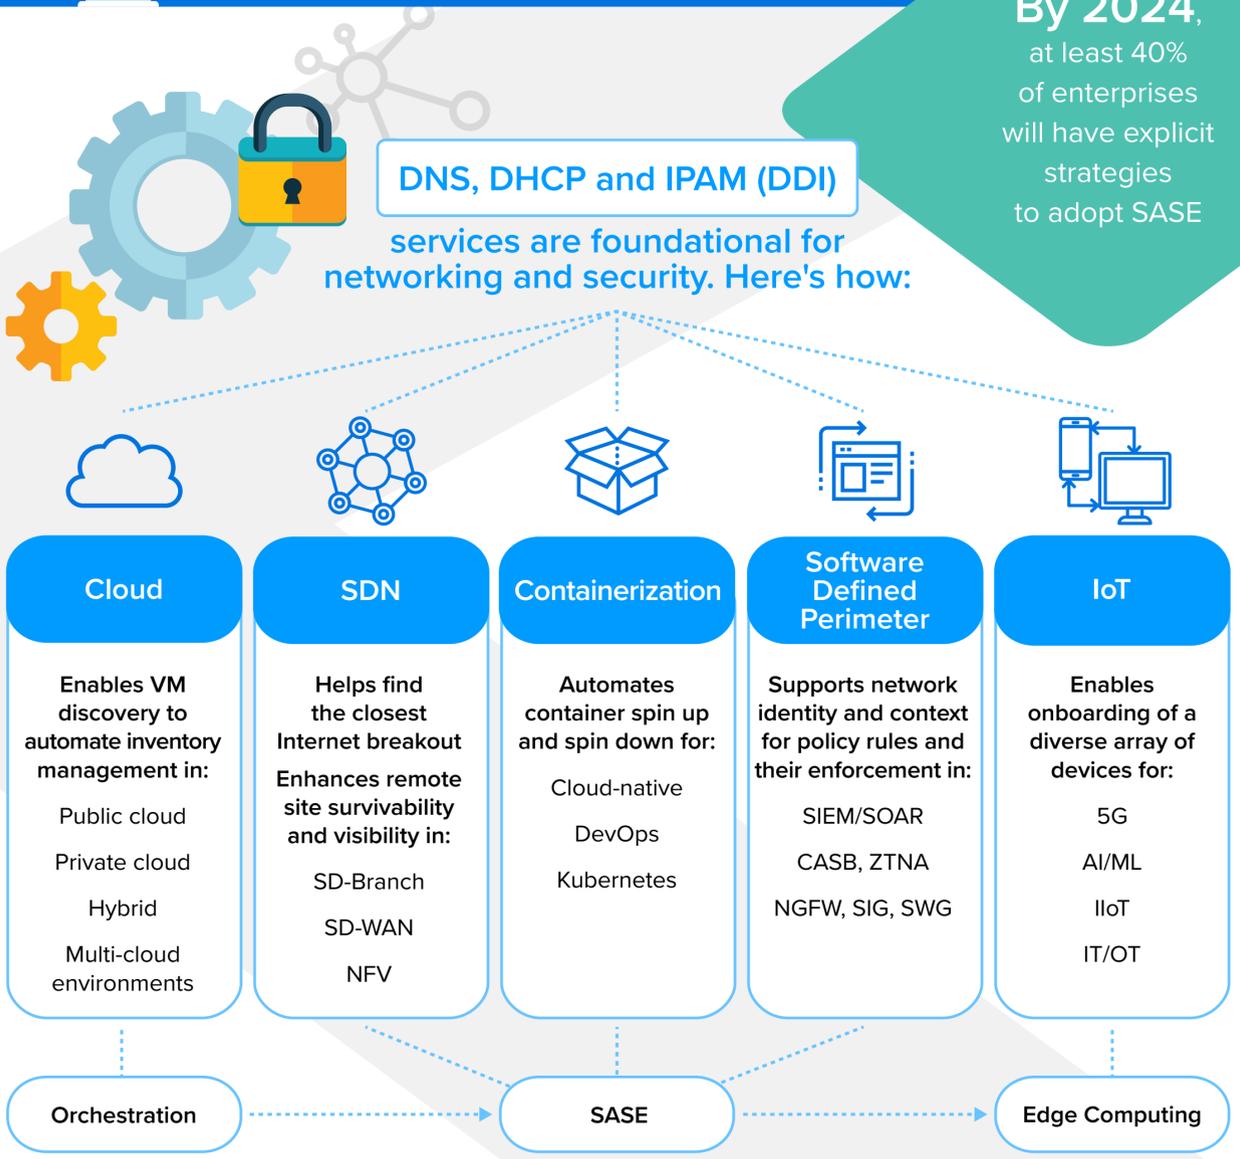

“We had complaints about how long it took pages to load. Those complaints dropped by 50% since we installed Infoblox”

“Infoblox's cloud solution gives our team complete visibility into all users and endpoints and successfully improved our cybersecurity risk score”

DDI: A foundation to launch today's transformational trends

By 2024, at least 40% of enterprises will have explicit strategies to adopt SASE

Infoblox: DDI for business modernization

50% of all organizations will primarily use cloud-based network management platforms by 2025, up from less than 15% today.

When it comes to enabling IT to support your most critical transformation initiatives, there's only one real choice: **Infoblox**.
